

## Nombres décimaux : les différentes écritures...

Un carré entier représente une unité. Dans chaque cas, colorie les nombres indiqués et complète les écritures comme le montre l'exemple :

1,4 ou $1 + \frac{4}{10}$ ou $1 + \frac{40}{100}$ ou $\frac{14}{10}$ ou $\frac{140}{100}$	1 unité et 4 dixièmes 	1 unité et 40 centièmes 	14 dixièmes 	140 centièmes 
---	--	---	--	--

0,7 ou ..... 	..... 	Colorie 1,25 	Colorie $\frac{21}{10}$ 
--	---	---	--

1,48 ou .....	..... 	..... 	..... 
---------------------	---	--	---

1,05 ou .....	..... 	..... 	..... 	..... 
---------------------	--	---	--	--
